Importance: High

June, Mark, Ben:

June and I spoke and settled on 1:00 PM Pacific time. **Mark and Ben, if that doesn't work for you, let me know ASAP.**

Ben, I'm hoping you can join me in the Orca room, or you can call from your desk if that's easier.

The conference call line is (b) (6) and the access code is (b) (6)

Thanks,

Brian Nickel, E.I.T.

How about a conference call at 10:40 this morning?

June:

Yes, I'm here today. I have a call at 11:30 AM Pacific, but it should take less than 1 hour. Other than that I'm free.

Thanks,

Brian Nickel, E.I.T.

Subject: are you in today?

Hi Brian,

I talked to Mark yesterday just before the Sandpoint meeting and he had some alternative ideas as I mentioned on modeling. We also got puzzled about the amount of ammonia Sandpoint discharges and have some questions for you. Mark is going to be out of the office for the next three weeks so today looks like it is it to discuss this with him. Just wondering if you are in today and willing to help us understand some things and talk Cormix. I took the day off but can go into the office for a conference call if I can arrange it with Mark. Do you have any time today and when would be a good time? We could wait until Mark gets back but that sets us back three weeks. Thoughts? Thanks.
June
